

Board AI Briefing Pack

[Bank Name] AI Strategy

Strategic Board Briefing

Date: [INSERT DATE]

CONFIDENTIAL - For Board Members Only

Executive Summary

- 1 The AI Opportunity** [Quantified market opportunity and competitive imperative]
- 2 Current State Assessment** [Maturity level, strengths, and key capability gaps]
- 3 Risk & Governance Framework** [Risk appetite, regulatory requirements, governance structure]
- 4 Recommended Action Plan** [Priority initiatives, investment, and timeline]

Market Context: AI in Banking

\$2.3T

Projected AI Market Value in FS by
2030

35%

Average ROE Uplift Opportunity

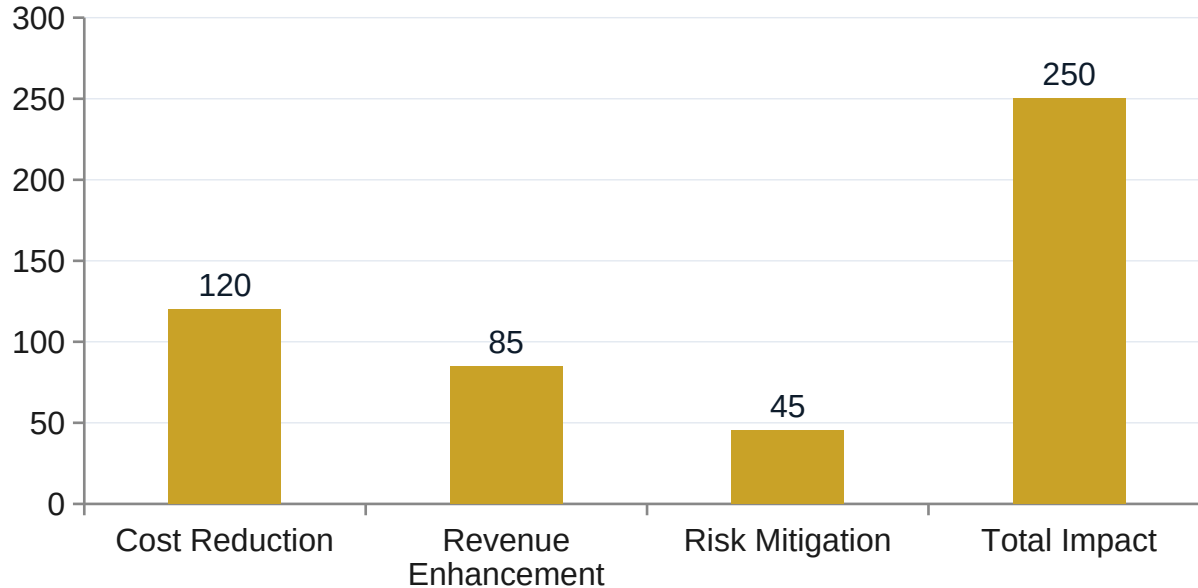

25%

Cost/Income Improvement Target

Peer Benchmarks

Bank	AI Maturity	Key Initiatives	ROE Impact
DBS Bank	Leader	End-to-end automation, Gen AI platforms	+3.2%
JPMorgan Chase	Leader	COIN, proprietary LLMs	+2.8%
UBS	Advanced	Risk AI, wealth management AI	+2.1%
[This Bank]	[Current Level]	[Current Initiatives]	[To Achieve]

AI Opportunity Sizing: P&L Impact

280%

3-Year ROI

18 Months

Payback Period

22%

COE Improvement

Current State: Maturity Assessment

Dimension	Current	Target	Gap
Strategy & Governance	Level 2	Level 4	High
Data & Infrastructure	Level 2	Level 4	High
Talent & Capabilities	Level 1	Level 3	Very High
Use Case Portfolio	Level 2	Level 4	High
Operating Model	Level 1	Level 4	Very High
Risk & Compliance	Level 2	Level 3	Medium

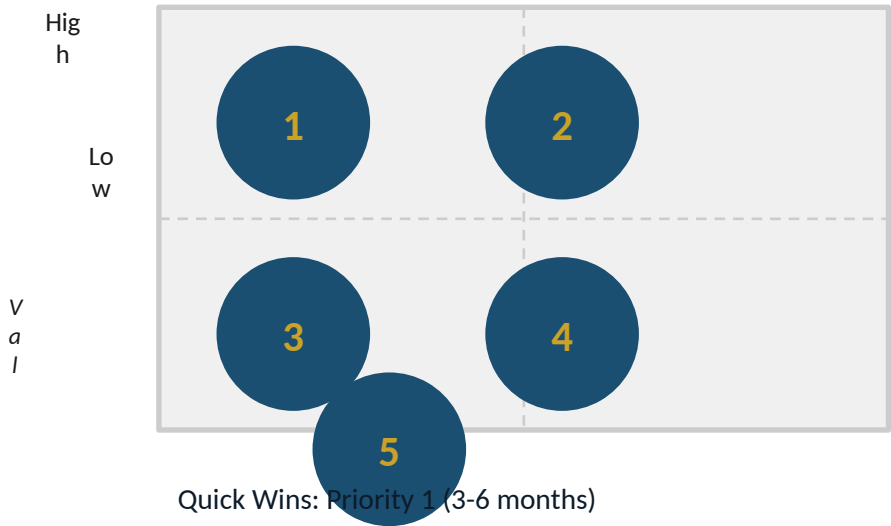

Key Strengths

- Strong data foundation
- Executive AI awareness
- Existing PoCs underway

Critical Gaps

- No dedicated AI CoE
- Limited AI talent
- Fragmented governance

Use Case Portfolio: Prioritization Matrix

Rank	Use Case	Value	Implementation
1	KYC Automation	\$45M	6 months
2	Fraud Detection	\$65M	8 months
3	Gen AI Service	\$52M	12 months
4	Portfolio Analytics	\$38M	10 months
5	Credit Risk AI	\$42M	9 months

Risk & Governance Framework

Risk Appetite Definition

Model Accuracy & Bias

Data Privacy & Security

Regulatory Compliance

Operational Resilience

Third-Party Risk

Proposed Governance Structure

Board AI Committee

- Strategic oversight
- Risk appetite
- Resource approval

AI CoE Steering

- Portfolio governance
- Use case prioritization
- Performance tracking

Risk & Compliance

- Model governance
- Bias/fairness review
- Audit & control

Regulatory Landscape & Compliance

Regulation	Requirement	Our Approach
SR 11-7 (US)	Model risk governance	Board oversight, independent review
SS1/23 (ECB)	AI governance framework	CoE with risk/compliance integration
NIST AI RMF	Risk management	Four-phase assessment & mitigation
EU AI Act	High-risk classification	Transparency, audit trails, testing
SAMA/CMA KSA	Local AI governance	Compliance matrix, quarterly reporting

Compliance Roadmap

Q1 2024 Governance framework, Risk policies	Q2 2024 Vendor assessment, Security baseline	Q3 2024 Model validation, Audit readiness	Q4 2024 Full compliance, Board attestation
---	--	---	--

Target Operating Model: CoE Structure

Recommended Staffing

Role	FTEs	Reporting To
CoE Director	1	Chief Data Officer
ML Engineers	8-10	CoE Director
Data Scientists	6-8	CoE Director
AI Product Mgrs	4-5	CoE Director
Risk/Compliance	2-3	Chief Risk Officer
TOTAL	22-30	Mixed

Vendor & Partnership Strategy

Cloud Platforms

AWS, Azure, GCP
Infrastructure & LLMs

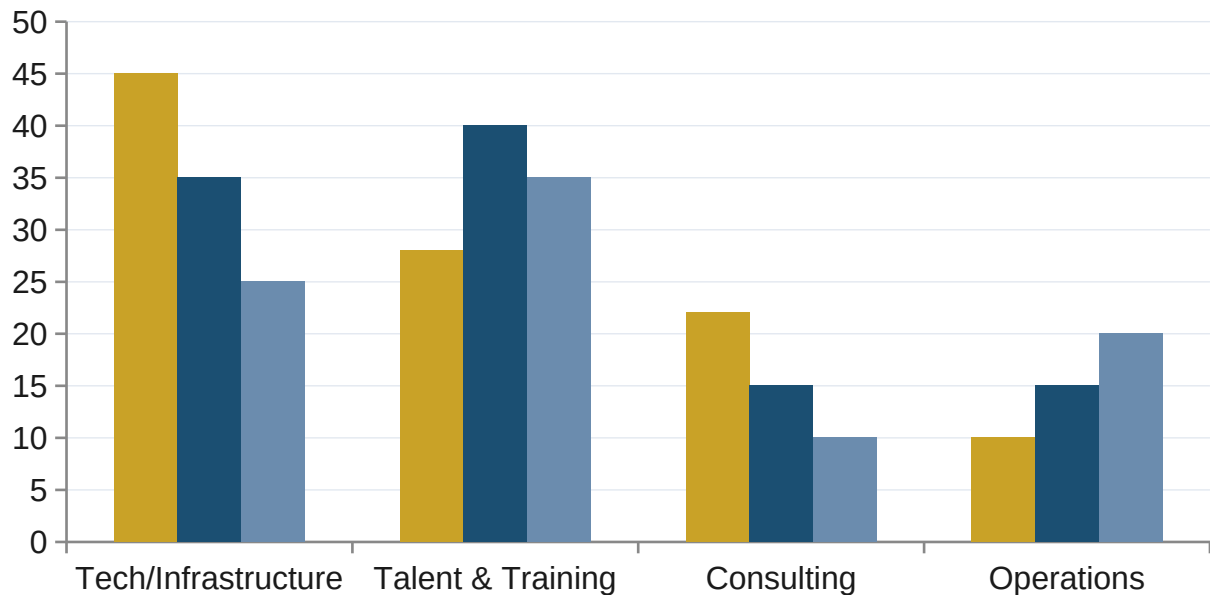

Enterprise AI

Databricks, Palantir
Data & ML platforms

Consulting

Enterprise.AI, Deloitte
Strategy & implementation

Investment Profile: 3-Year Plan

\$85-105M

Total 3-Year Investment

\$250M

Expected Annual Returns

\$580M+

NPV (@ 10% discount)

Payback Analysis

Year 1 investments in infrastructure and talent lay foundation. Year 2 shows ROI from initial use cases. Year 3 reaches full payback as portfolio scales. Cumulative 3-year ROI: 280%.

Recommended Actions: 90-Day to 12-Month Plan

Days 1-90

Foundation

- Establish AI CoE
- Define governance framework
- Finalize vendor partnerships

6 Months

Acceleration

- Deploy 2-3 quick wins
- Scale CoE team
- Implement monitoring/governance

12 Months

Portfolio Impact

- 5+ use cases live
- Demonstrate ROI
- Plan Year 2 scaling

Key Board Decisions Required

- Approve \$85-105M 3-year investment program
- Authorize CoE establishment and staffing
- Empower use case prioritization and execution governance

Next Steps & Discussion

Key Discussion Topics for the Board

- Risk appetite and governance framework alignment

- Investment timing and phasing strategy

- Talent acquisition and retention plan

- Competitive response timeline

- Success metrics and board-level KPIs

Next Steps

- Board decision on strategic direction & investment
- Detailed 100-day planning with executives
